

Custom Rolled Channel Estate Gates

Aluminum is strong and light. When powder coated, it becomes the perfect maintenance free material to use in gate construction

CUSTOM SIZED TO FIT ANY OPENING

On site manufacturing allows us to custom build to any opening.

WELDED CONSTRUCTION

Onsite construction by a certified welder overseen by the Ultra staff ensures a quality gate every time.

POWDER COATED FINISH

On site powder coating in Ultra's state-of-the-art facility in five standard colors ensures a beautiful maintenance free finish.

MAINTENANCE FREE HINGE SYSTEM

Ultrahinge™ - Revolutionary new design using all aluminum extrusion, mylar hinge blocks and j-bolts. May be welded or bolted on any type of gate frame and used for both post and column mount applications.

ACCESSORIES

All finials and circles are made from aluminum and powder coated.

CUSTOM DESIGNS AVAILABLE

Many unique designs can be achieved. Send us a drawing.

LIFETIME WARRANTY

All gates are backed by Ultra Aluminum's Limited Warranty.
