

The new look in gravity latching systems

LOKK•LATCH

Lockable, pedestrian & privacy gate latch

NEW!

AT LAST there's a gravity latch that's key-lockable and stylishly designed.

From the designers of the revolutionary Magna•Latch® and Tru•Close® gate hinges comes the innovative LOKK•LATCH™, an affordable but superior, pedestrian and privacy gate latch.

LOKK•LATCH takes a radical new approach to the gravity latch principle and combines the benefits of key-lockability and reliable latching action with sleek design and 100% rust-free components.

Modern styling and the highest-quality molded and stainless steel components make LOKK•LATCH the most exciting gate device in years.

An optional 'External Access Kit' allows a latch to be opened and locked from *outside* the gate (e.g. street side).

LIFETIME WARRANTY!

Vinyl

- Key-lockable (no padlocks)
- 100% rust-free...for life

LOKK•LATCH Kits & Optional Extras

The revolutionary new LOKK•LATCH is available in three 'Systems' to suit different materials. All latches can be fitted to left- and right-hinged gates. System 1 is designed for iron and aluminum posts. System 2 is ideal for vinyl, wood brick and larger metal materials. System 3 can be used on all materials but offers the additional strength of (short) side-fixing legs.

- All Systems are available as:
- Lokk•Latch only
 - Latch *and* External Access Kit
 - External Access Kit only

Latch & External Access Kit

SYSTEM 1
Code LL1ABBG

SYSTEM 2
Code LL2ABBG

SYSTEM 3
Code LL3ABBG

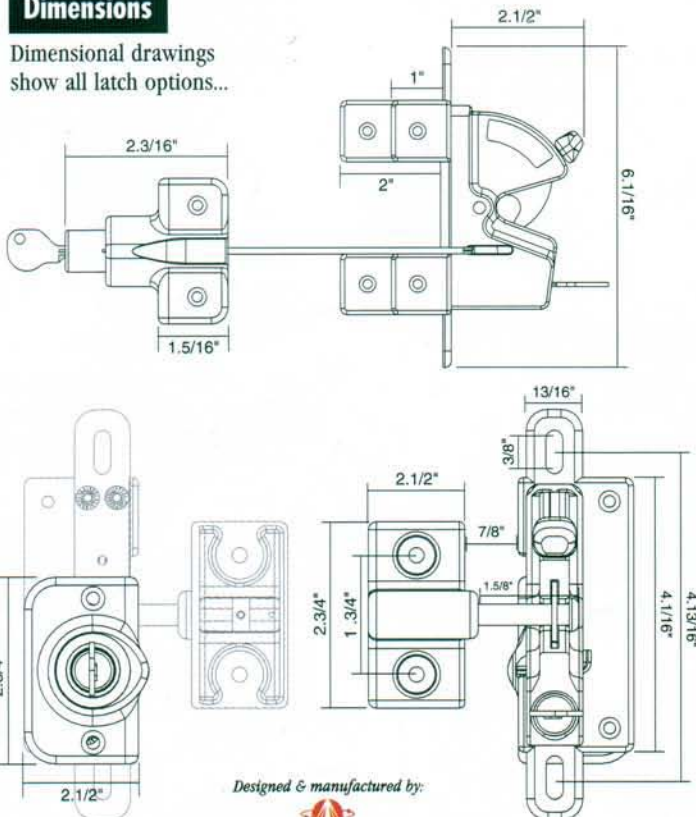

Adjustable, threaded rod ▶
The adjustable push-rod included with the 'External Access Kit' is to allow installation of the kit to posts of varying dimensions ($1\frac{3}{4}$ "–5"). The rod is easy to adjust and provides fine fitting.

Side-Fixing Legs ▶
Systems 2 & 3 feature side-fixing legs that provide added strength (lateral) for gates with larger post materials.
