

MOWSTRIP

Fence Weed Barrier

The Mowstrip is a plastic barrier for the bottom of fences. The Mowstrip is intended to eliminate the need to trim around fences and posts. This is the natural way to block weeds and grass from growing so you don't need to use a trimmer or chemicals.

The Mowstrip weed barrier is easy to install that lies under the fence to prevent grass or weeds. The Mowstrip is compatible with chain link fence, ornamental fence, wood fence and PVC fence. Many customers also use the Mowstrip for dog kennels, storage bins, children's play area, cemeteries, day cares and baseball fields.

The Mowstrip is made of HDPE (plastic) material with added UV inhibitors. It is uniquely designed so it will not rust, rot or lose it's shape.

The Mowstrip is available only in **green** and gives the appearance of a well groomed lawn at all times.

Mowstrip is perfect for:

- Dog Kennels
- Baseball Fields
- Gardens
- Cemeteries
- Parks
- Churches
- Day Cares
- Schools
- Vinyl Fence
- Privacy Fence
- Chain Link Fence
- Wood Fence
- Ornamental Fence
- Composite Fence
