

Versailles designer planter

Model # 5891
Indoor/Outdoor Use
UV Protected
Shock Resistant

PACKAGE CONTENTS: Planter with Removable Tray

MATERIAL: Polyethylene

IMPORTANT NOTE:

- Drainage holes are not included and can be drilled in the desired location depending on the intended use of the planter. See instructions on the reverse side for more details.
- Mayne planters are very durable but we still recommend light-weight fillers and potting mixes for optimal plant growth.

GENERAL INFORMATION:

- Molded from durable, all-weather polyethylene
- Drainage holes required when using planters outdoors
- Rinse clean with a garden hose; for a deeper clean, use a power washer
- 15-year warranty for residential use, 5-year warranty for commercial use

Section View

* The vent hole in the center of the tray is part of the manufacturing process. It also serves as an internal drainage hole.

Planting instructions

Drainage Holes:

Depending on the intended use of the planter, drainage holes need to be drilled in different locations.

Option #1:

To utilize the water reservoir feature, drill a 6.3 mm (1/4 in) diameter hole 35 cm (13.9 in) up from the bottom of the planter. A divot marks the location as shown below. The overflow helps maintain ideal water levels and avoid oversaturation of the soil.

Option #2:

To use the planter as a regular container planter, drill two holes in the bottom of the planter to allow for drainage. This option is also recommended when inserting potted plants.

Removable Tray

Keep the tray level and press fit into place. Ensure the tray is stable before adding potting mix.

TIP: To remove the tray pull up using the center hole.

Sub-Irrigation System

The Versailles planter includes a water trough insert creating a reservoir at the bottom of the planter. Capillary action allows water in the reservoir to soak upward, keeping the soil and plant roots moist. To avoid oversaturation, an overflow hole is located in the side of the planter to allow excess water to drain freely from the reservoir. Regular watering is required for the first few weeks, giving the root system time to develop. Please note that due to the height of the planter, the root system on some plants may not fully reach the water trough, so regular watering may be required for a longer period of time.

Versailles

Model # 5891

Versailles 26in Tall Round Planter

DESCRIPTION

A modern tapered planter with simple, elegant lines that give any outdoor living space that designer look. Not only a great value, this planter also offers exceptional durability.

- Single wall molded design with removable tray
- Self watering tray insert creates sub-irrigation water system
- Weather resistant, low maintenance material
- 100% high-grade polyethylene planter with UV inhibitors
- Warranty: 15-Yr Residential Use / 5-Yr Commercial Use

PRODUCT DIMENSIONS

Outside Dimensions: 17.9in DIA x 26in H (45.5cm x 66cm)

Inside Dimensions: 14.7in DIA x 11.5in D (37.4cm x 29.2cm)

Soil Capacity: 8.8 Gallons (33.3 Liters)

Water Reservoir Capacity: 6 Gallons (22.7 Liters)

Wall Thickness: 0.12in (3mm)

Part Weight: 8.5lbs (3.9kg)

Material: Polyethylene
